

ONLINE EXAM REQUIREMENTS

Computer Requirements

Candidates can choose to take the examination on an on-demand basis on any computer (desktop or laptop computers only – no cellphones or tablets may be used) if they meet all requirements listed below. <u>No exceptions will be made.</u>

- 1. Reliable high-speed internet (not hotspot)

Proctorio Extension

This examination will use Proctorio: an online tool that provides examination security. Judgments regarding any potential examination violation(s) (ex: cheating, using materials, allowing others in the examination area, etc.) will be determined by PCB.

Privacy

Proctorio uses single sign-on through PCB's website and only PCB will have access to your exam data.

Security

Proctorio runs as an extension in your browser. This means that Proctorio has limited access to your computer system. Proctorio only runs while you are taking your exam. After your exam ends, you may uninstall the extension by right-clicking on it. Just remember, you'll need to reinstall the extension again if you need to retest.

Getting Started

Before getting started on your exam, make sure to follow the instructions below. If you have any trouble while using Proctorio, you can contact Proctorio support for troubleshooting. Proctorio support is available 24/7 and can assist in troubleshooting any extension-related issues before, during and after your exam.

You can contact Proctorio support via email at support@proctorio.com or by starting a live chat by clicking the Proctorio extension's shield icon.
